REQUEST FOR PROPOSAL

The Michigan Department of Transportation (MDOT) is seeking professional services for the project contained in the attached scope of services.

If your firm is interested in providing services, please indicate your interest by submitting a Proposal, Proposal/Bid Sheet or Bid Sheet as indicated below. The documents must be submitted in accordance with the latest "Consultant/Vendor Selection Guidelines for Service Contracts" and/or "Guideline for Completing a Low Bid Sheet(s)", if a low bid is involved as part of the selection process. **Referenced Guidelines are available on MDOT's website under Doing Business > Vendor/Consultant Services>Vendor/Consultant Selections**

RFP SPECIFIC INFORMATION

☒ BUREAU OF HIGHWAYS ☐ BUREAU OF TRANSPORTATION PLANNING ** ☐ OTHER

THE SERVICE WAS POSTED ON THE ANTICIPATED QUARTERLY REQUESTS FOR PROPOSALS

☐ NO ☒ YES DATED 10/1/08 THROUGH 12/31/08

<input checked="" type="checkbox"/> Prequalified Services – See page <u>1</u> of the attached Scope of Services for required Prequalification Classifications.	<input type="checkbox"/> Non-Prequalified Services - If selected, the vendor must make sure that current financial information, including labor rates, overhead computations, and financial statements, if overhead is not audited, is on file with MDOT's Office of Commission Audits. This information must be on file for the prime vendor and all sub vendors so that the contract will not be delayed.
---	--

☒ **Qualifications Based Selection** – Use Consultant/Vendor Selection Guidelines

For all Qualifications Based Selections, the selection team will review the information submitted and will select the firm considered most qualified to perform the services based on the proposals. The selected vendor will be contacted to confirm capacity. Upon confirmation, that firm will be asked to prepare a priced proposal. Negotiations will be conducted with the firm selected.

**** For RFP's that originate in Bureau of Transportation Planning only**, a priced proposal must be submitted at the same time as, but separate from, the proposal. Submit directly to the Contract Administrator/Selection Specialist, Bureau of Transportation Planning (**see address list, page 2**). The priced proposal must be submitted in a sealed envelope, clearly marked **"PRICED PROPOSAL."** The vendor's name and return address **MUST** be on the front of the envelope. The priced proposal will only be opened for the highest scoring proposal. Unopened priced proposals will be returned to the unselected vendor(s). Failure to comply with this procedure may result in your priced proposal being opened erroneously by the mail room.

For a cost plus fixed fee contract, the selected vendor must have a cost accounting system to support a cost plus fixed fee contract. This type of system has a job-order cost accounting system for the recording and accumulation of costs incurred under its contracts. Each project is assigned a job number so that costs may be segregated and accumulated in the vendor's job-order accounting system.

☐ **Qualifications Review / Low Bid** - Use Consultant/Vendor Selection Guidelines. See Bid Sheet Instructions for additional information.

For Qualification Review/Low Bid selections, the selection team will review the proposals submitted and post the date of the bid opening on the MDOT website. The notification will be posted at least two business days prior to the bid opening. Only bids from vendors that meet proposal requirements will be opened. The vendor with the lowest bid will be selected. The selected vendor may be contacted to confirm capacity.

☐ **Best Value** - Use Consultant/Vendor Selection Guidelines. See Bid Sheet Instructions below for additional information. The bid amount is a component of the total proposal score, not the determining factor of the selection.

☐ **Low Bid** (no qualifications review required - no proposal required.) See Bid Sheet Instructions below for additional instructions.

BID SHEET INSTRUCTIONS

A bid sheet(s) must be submitted in accordance with the "Guideline for Completing a Low Bid Sheet(s)" (available on MDOT's website). The Bid Sheet(s) is located at the end of the Scope of Services. Submit bid sheet(s) separate from the proposal, if QBS/low bid selection to the address indicated below. The bid sheet(s) must be submitted in a sealed envelope, clearly marked **"SEALED BID."** The vendor's name and return address **MUST** be on the front of the envelope. Failure to comply with this procedure may result in your bid being opened erroneously by the mail room and the bid being rejected from consideration.

GENERAL INFORMATION

Any questions relative to the scope of services must be submitted by e-mail to the MDOT Project Manager. Questions must be received by the Project Manager at least four (4) working days prior to the due date and time specified above. All questions and answers will be placed on the MDOT website as soon as possible after receipt of the questions, and at least three (3) days prior to the RFP due date deadline. The names of vendors submitting questions will not be disclosed.

MDOT is an equal opportunity employer and MDOT DBE firms are encouraged to apply. The participating DBE firm, as currently certified by MDOT's Office of Equal Opportunity, shall be listed in the Proposal

MDOT FORMS REQUIRED AS PART OF PROPOSAL/BID SUBMISSION

5100D – Request for Proposal Cover Sheet

5100G – Certification of Availability of Key Personnel

5100I -- Conflict of Interest Statement

(These forms are not included in the proposal maximum page count.)

Michigan Department of Transportation

**SCOPE OF SERVICE
FOR
“AS NEEDED” CONSTRUCTION SERVICES
Technical Assistance**

CONTROL SECTION(S): Various

JOB NUMBER(S): Various

PROJECT LOCATION(S): Muskegon, Newaygo, Oceana, & Ottawa Counties

DESCRIPTION OF WORK:

Provide services to perform to the satisfaction of the Department, Technical Assistance (T.A), previously Office Technician, duties for road and bridge construction work which may include work to close projects out (“finaling”) after construction in accordance with MDOT specifications, publications, and accepted practices.

This scope of service requires 2 T.A.’s to perform the as needed services:

- The first T.A. position shall be expected to perform an estimated 24 to 40 hours which may vary with required potential overtime.
- The second T.A. position shall be expected to perform an estimated 10 to 15 hours which may encompass portions of approximately 0 to 2 days per week during the summer (June-September) and 2-3 days per week during the winter (Oct-May), or as otherwise requested by the Project Engineer Manager.

When feasible, or when requested by the MDOT Project Engineer Manager, both T.A positions may be filled by the same individual.

This service will be performed at the Muskegon TSC Office on various projects throughout 2009 and a portion of 2010 as directed by the Project Engineer Manager. The employee(s) submitted for these positions shall be dedicated for the entire length of the service.

An attempt will be made as often as practical, and/or when performed by a second individual, to adjust the second T.A. hours in half-day or greater blocks of time to minimize unnecessary travel.

ANTICIPATED START DATE: February 2009

ANTICIPATED COMPLETION DATE: June 2010

PRIMARY PREQUALIFICATION CLASSIFICATION(S):

Technical Assistance

SECONDARY PREQUALIFICATION CLASSIFICATION(S)

N/A

DBE REQUIREMENT(S): 0%

MDOT PROJECT MANAGER:

Gregg Zack, P.E.
2225 Olthoff Drive
Muskegon, MI 49444-2644
Phone: 231-777-3451
Fax: 231-777-3621

GENERAL INFORMATION:

Full-time services will not be required at all times. This "as-needed" service is based on the intermittent needs of the project office for Technical Assistance. The service hours are estimated; as such, the Department reserves the right to vary these hours as required to complete the necessary services. There is no guarantee that Consultant services will be required on any or all of the listed project(s), or that the total hours of service will match those estimates included within this scope.

The Consultant's point of contact will be contacted with the requests for staff. It is anticipated that the provided personnel will remain with the Department active on this authorization throughout the duration of the contract, with substitutions made only for Holidays, Sick Leave, etc. Every attempt will be made to submit requests and schedule at least one week prior to the need for personnel, however it is expected that any requests made will be complied with within a 24-48 hour period. If the consultant is unable to fulfill the request, MDOT may utilize a secondary consultant for the services.

The consultant staff will report and be directly responsible to the Project Manager who is in responsible charge of the project construction. Work hours and assignments will be given to the consultant staff directly by the Project Manager or other MDOT personnel from this office. The consultant staff will cooperate with the senior level MDOT Technicians and above to ensure that adequate services are provided.

CONSULTANT RESPONSIBILITIES:

The Consultant will provide, to the satisfaction of the Department, "as-needed" Technical Assistance as requested by the Project Engineer Manager.

The Consultant agrees to demonstrate the knowledge and performance in compliance with the standard construction practices of the Department; the project specific construction contracts, proposal, and plans; the Standard Specifications for Construction and all applicable publications referenced within; the Michigan Construction Manual; the Materials Sampling Guide; the Materials Quality Assurance Procedures Manual; the Density Control Handbook and any and all other references, guidelines, and procedures manuals needed to carry out the work described herein in an appropriate manner.

The Consultant will immediately bring to the attention of the MDOT Project Engineer any failure by the Contractor to comply with any documentation requirement, any problem, trends toward borderline compliance, or any occurrence which may require resolution.

The employee shall provide their own transportation to, from, and on the project site to perform the services outlined herein. Work may require occasional travel to the project sites, during which time the employee shall wear personal safety equipment in accordance with MIOSHA and MDOT requirements and practices.

The proposed Technical Assistance shall have a thorough understanding of the MDOT and Federal wage compliance rules, laws, guidelines, etc., as they will likely perform the review of all contractor and subcontractor payrolls, and will be charged with the task of following-up with all deficient findings.

The employee shall attend all project related meetings, when directed by the Project Engineer Manager.

All overtime for the Consultant must be authorized by the Project Engineer Manager prior to the start of the work by the Consultant.

MDOT RESPONSIBILITIES:

The Project Engineer Manager will provide the employee(s) with the Field Manager computer and software at the Muskegon TSC site, and/or the standard office supplies and equipment for the services required.

The Project Engineer Manager shall furnish to the Consultant all project specific construction proposals, plans, plan revisions, written instructions, reports forms, other information and/or data deemed necessary for the services required herein.

CONSULTANT PAYMENT – Actual Cost Plus Fixed Fee:

Compensation for this project shall be on an **actual cost plus fixed fee** basis. This basis of payment typically includes an estimate of labor hours by classification or employee, hourly labor rates, applied overhead, other direct costs, subconsultant costs, and applied fixed fee.

All billings for services must be directed to the Department and follow the current guidelines. The latest copy of the "Professional Engineering Service Reimbursement Guidelines for Bureau of Highways" is available on MDOT's website. This document contains instructions and forms that must be followed and used for billing. Payment may be delayed or decreased if the instructions are not followed.

Payment to the Consultant for services rendered shall not exceed the maximum amount unless an increase is approved in accordance with the contract with the Consultant. Typically, billings must be submitted within 60 days after the completion of services for the current billing. The

final billing must be received within 60 days of the completion of services. Refer to your contract for your specific contract terms.

Direct expenses, if applicable, will not be paid in excess of that allowed by the Department for its own employees in accordance with the State of Michigan's Standardized Travel Regulations. Supporting documentation must be submitted with the billing for all eligible expenses on the project in accordance with the Reimbursement Guidelines. The only hours that will be considered allowable charges for this contract are those that are directly attributable to the activities of this project.

The use of overtime hours is not acceptable unless prior written approval is granted by the MDOT Region Engineer/Bureau Director and the MDOT Project Manager. Reimbursement for overtime hours that are allowed will be limited to time spent on this project in excess of forty hours per person per week. Any variations to this rule should be included in the priced proposal submitted by the Consultant and must have prior written approval by the MDOT Region Engineer/Bureau Director and the MDOT Project Manager.

The fixed fee for profit allowed for this project is 11.0% of the cost of direct labor and overhead.

The hours provided are only an estimate. The Consultant will be reimbursed a proportionate share of the fixed fee based on the portion of the authorized total hours in which services have been provided to the Department. Fixed fee on "as needed" projects is computed by taking the percent of actual labor hours billed to labor hours authorized, then applying that percentage to the total fixed fee authorized.
